Hack from Native

Hack from Native is one of the four themes of Hack4Purpose 1st Edition, wherein applicants can choose to solve any issues pertaining to local industries in their very own district and State. They can also explore any new opportunities such as a new technology that can increase productivity or efficiency of the existing native industries. You are free to choose any State or district of your choice. The list given below is not exhaustive, so feel free to look into the rich resources in your very own district and come up with innovative ways to convert it into a viable and sustainable business opportunity.

For example in Tamil Nadu leather industry, textile industry in Tirupur, Beaches and coastline for tourism, Cocopeat from Coimbatore, Automotive manufacturing, all these are core industrial hubs in the State due to the richness of local resources

States & Native Industries	States & Native Industries
Andhra Pradesh	**Gujarat**

Andhra Pradesh

1. Agriculture
2. Fisheries
3. Information Technology
4. Textiles and Apparel
5. Pharma and Biotechnology
6. Automobile and Auto Components
7. Renewable Energy
8. Petrochemicals and Chemicals
9. Tourism and Hospitality
10. Mining and Minerals

Gujarat

1. Textile Industry

Leather Industry 9. Information Technology (IT)

Examples

In case of native industries of tourism you can look into ways of sustainability and technology integration to improve the rate of tourism in your State. Successful businesses like Airbnb used technology as a business model to aggregate and list people' homes as affordable places to stay during trips. When we look at say leather industry, companies like Proklean technologies had come up with sustainable and eco-friendly enzymes to remove te hairs from animal skin. In the case of the petrochemical industries, toxic polymers like PVC does not have definitive recycling solutions. More creatively, when we look at forestry that unfortunately catches fire or is being destroyed by pollution, restoration projects help acquire carbon credits which can be sold to many corporates. In these ways, you and your team can drive your awesome brains to come up with best solutions to boost your local economy.

Union Territories & Native Industries	Union Territories & Native Industries
Andaman and Nicobar Islands 1. Fisheries 2. Agriculture 3. Tourism 4. Handicrafts 5. Coconut-based industries	**Chandigarh** 1. Government Administration 2. Education and Research 3. Information Technology (IT) Services 4. Tourism and Hospitality
